LuxTrax

LuxTrax is ideally suited for marquee flooring, non slip temporary walkways for inside and outside exhibitions and shows.

LuxTrax tiles measure approx. 500mm x 500mm x 32mm and weigh just 1.5kg = 6kg per m². They are manufactured from reprocessed polyprop co-polymer, which offers a high impact resistance even at low temperatures. Edging is available in yellow and black. Easy to lay, no need for any special skills or tools, BS approved for anti-slip.
