walk - ride - drive - support - protect

	106.68 cm x 106.68 cm x 5.08 cm
	4.1 kg
	25,000 lbs sq/ft
	High-Density Polyethylene (HDPE) reinforced with additives for added strength, flex modulus, and izod impact value.
	Light Gray, Putty Gray, Translucent. Custom colors available.
	Integrated self-aligning hook-and-loop connection system. Built-in cam-lock system can be used for a more secure connection if required.
	Specially designed for use over live grass to allow light, aeration, and water drainage. Each aeration hole incorporates a proprietary ridge that prevents casual spills from flowing through to the subsurface. Also improves traction in wet conditions.
	A 5-year UV package is incorporated into the material formulation to prevent degradation and brittleness as a result of prolonged sun exposure.
	Sloped transitional pieces with traction ribs 12" L x 41.875"W x 1.875" H (at highest point) 12 lbs. Secured using standard cam lock.
	3 year manufacturer's limited warranty, including cam locks
